

Report on Mandala Art Fun Activity

Date: 4th April,2018

Day: Wednesday

Venue:Classroom

Event:Mandala Art Fun Activity

The Mandala Art is a great tool for aligning one's thoughts with empowering truths and unleashing creativity. RBK Global School conducted a Mandala Creative Art Fun Activity on 4th April, 2018 to welcome the learners to the new academic session. All children from grade 4 to grade 10 took part in it.

Children were handed out Mandala colouring pages. Teachers projected variety of Mandala designs in their respective classrooms. Each child had the freedom to select his/her designs and to modify them as well. They used black ink and other mediums to create flowing, intricate and highly detailed patterns. As Carl Jung correctly said," a mandala is the psychological expression of the totality of the self." All the learners, irrespective of their age difference, were seen totally immersed in the activity venting out their inner-self.

Thus, the first day of the new academic session was not limited to textbooks and whiteboards. This fun activity acted as a powerful tool that helped the children to use their imagination and their thought process.
